Experience / Role Overview

Over 15 years varied Health and Safety experience in Construction, Local Authority and Manufacturing. I work with a wide range of businesses to engage, educate and enable them to manage Health and Safety essentials and ultimately feel reassured in key compliance.

My main role involves me mentoring small business owners in the essentials of risk management including setting up and implementing management systems, auditing, training and monitoring. Other expertise lies in construction, acting as CDM Consultant on projects up to £1m in value.
