

MARKSAFETY LTD.

Service price list 2019

WHAT ARE YOU INVESTING IN?

We aim to engage, educate and enable you to manage Health & Safety essentials in a practical and proportionate way.

We sell our time, knowledge and approach. You invest in protecting your business, your people and yourself. If done right the reassurance and compliance comes for free.

Having a price list keeps our service fair and transparent plus once we have the awkward cost conversation out of the way we can get on with the work.

Its hard to list every service here but fire risk assessments, workplace inspections, drafting documents and help with accreditations or assessments etc. can be quoted on request based on our hourly rate.
